Avinash Marathe

BIM Architect | Designer

Detail-Oriented Architect with 2.5 years of hands-on experience in Architectural Design and Building Information Modeling (BIM). Experienced in working on diverse international projects across the UAE, USA, Australia, and India, with a solid understanding of region-specific standards and practices. Proficient in tools such as Revit, AutoCAD, BIM 360, and Navisworks for developing accurate 3D models and managing detailed construction documentation. Skilled in advanced visualization and rendering software, including SketchUp, Lumion, Twinmotion, Enscape, and Recap Pro, to communicate design intent effectively. Adept at coordinating with multidisciplinary teams and ensuring seamless integration with MEP services, delivering solutions that align with client goals and technical requirements. Recognized for transforming complex design problems into practical, efficient, and aesthetically driven solutions. Committed to precision, innovation, and timely project delivery, with a strong focus on quality and detail in every phase of the design process.
