

Mohammad ubaid Tousef

VR4 BIM

Kochi, Kerala , India

Mobile: +91-7353494708

Email Id:- mrkhankhan894@gmail.com

PROFESSIONAL SUMMARY:

Dedicated BIM Engineer with 2+ Years of experience adept at spearheading end-to-end implementation of BIM methodologies for diverse construction projects. Proficient in leveraging cutting-edge software like Revit, AutoCAD, and Navisworks to develop intricate models and facilitate seamless collaboration among cross-functional teams. Skilled in optimizing project efficiency, mitigating risks, and delivering high-quality designs by harnessing BIM technology's full potential. Known for fostering streamlined communication and driving innovation in construction processes.

- Skilled in Architecture, Interior and Structural BIM Modeling with a strong skill set and comprehensive knowledge base.
- I excel in managing and delivering high-quality results while efficiently handling multiple projects concurrently.
- Proficiently managed projects using BIM 360, demonstrating comprehensive experience in its effective implementation and utilization.
- Familiar with BIM levels and adhering to industry-standard CAD protocols.
- I possess proficiency in both 2D detailing and 3D modeling techniques, enabling comprehensive visualization and precision in design.
- I possess a strong familiarity with scan-to-BIM projects, demonstrating proficiency in leveraging cutting-edge technology for accurate spatial modeling.
- Adopting of BIM on Multiple scale projects with the ability to generate, develop and manage all BIM information and extract drawings, documents, schedules and specification.
- Experienced in clash detection methodologies and creating comprehensive clash reports.
- Possess proficient experience in maintenance utilizing parametric models.
- Proficient in effective communication, adept coordination, and consistently exceeding targets.
- Stay updated with the latest industry trends, software updates, and best practices in BIM modeling and construction technology.

EDUCATIONAL PROFILE:

- **VEERAPPA NISTY ENGINEERING COLLEGE**
Shorapur, Yadgir district Karnataka .
(Visvesvaraya Technological University [2017- 2021])
BACHELOR OF ENGINEERING IN CIVIL

SOFTWARE SKILLS

- REVIT
- AUTOCAD
- NAVISWORKS

- MS-Office
- Microsoft Outlook & Teams

WORK EXPERIENCE

❖ **VR4 BIM:** (FEB 2023 TO Present)

✚ **THE LINK-MASDAR CITY ABU DHABI.**

✚ **DUBAI MARITIME CITY2(CORAL REEF)UAE**

✚ **NEOM LIVABILITY AREA (NEOM CITY-SAUDI ARABIA).**

- Generated BIM models from CAD references for architectural, interior, and structural designs.
- Developed comprehensive Revit sheets tailored for architectural, interior, and structural packages.
- Modeling of Studs with connection, Creating parametric truss family.
- Creating GA Floor Plans, Flooring Plans, Reflected Ceiling Plans, Blockwork Setting out Plans and elevations, Interior finishes Plans and elevations, and Furniture Layout Plans.
- Developed and managed annotation families in Revit as part of project contributions.
- Worked on rebar detailing and steel connection work with hands-on experience in executing projects efficiently.
- Collaborated seamlessly with MEPF and ICT teams to successfully deliver integrated projects and initiatives.
- Worked on generating detailed working drawings, GFC drawings, and meticulous as-built drawings.
- Worked on modifying and updating markups and comments to enhance project clarity and functionality.
- Worked on handling and exporting various file formats including IFC, DWG, PDF, NWC, etc., demonstrating strong technical skills in document management and collaboration.
- Proficiently managed projects using BIM 360, demonstrating comprehensive experience in its effective implementation and utilization.

❖ **Androbim pvt (Hydrabad):** (JAN 2022 TO JAN 2023)

✚ **SHUR ISLAND SAUDI ARABIA**

✚ **PAAET UNIVERSITY KUWAIT.**

✚ **CARILLON APPARTMENT-Nashville (USA).**

- Creating BIM Model from CAD as a reference.
- Successfully produced comprehensive drawings, schedules, families, and tailored parameters in alignment with design specifications and project requirements.
- Generated 2D drawings and construction documents from the BIM models, including plans, elevations, sections, and details, ensuring they met project specifications and standards.
- Creating Parametric and Non-parametric families required for the project.
- Coordination of working drawings with Senior Engineers.
- Successfully resolved complex interference and clashes within design models to ensure seamless project execution.
- Collaboration with team and working on work sets.
- Creating annotation, Title block, Families etc.

- Exporting IFC, DWG, PDF, NWC etc.

PERSONAL PROFILE:

Name : Mohammad Ubaid Tousef
Father's Name : MD Mukaram Jaha
Date of Birth : 15-10-1998
Address : 8-3-67, Qureshi Mohalla ShorapurYadgir Karnatak.
Marital Status : Single
Passport no : V4994851
Nationality : Indian
Languages : English, Hindi, Urdu & Kannada.

DECLARATION:

I hereby declare that all the details furnished above are true to the best of my knowledge & belief.

Place: Kochi

Date:

Mohammad Ubaid Tousef
