EDUCATION

B.E., Civil Engineering, SNS College of Technology (2019-2023)

WORK EXPERIENCE

Pinnacle infotech Solutions - 2023 – 2025 (In present)

Worked on large-scale commercial and airport projects, coordinating with clients under the guidance of seniors to ensure model updates, timely deliverables, and alignment with project requirements. Actively participated in client meetings, handled model updates based on feedback, and maintained effective communication throughout all project phases.

PROJECT EXPERIENCE

1.New Phnom Penh International Airport- Cambodia:

- Developed & managed detailed 3D BIM models (LOD 100–500).
- Created intelligent, parametric Revit families aligned with shop drawings and project specifications, enhancing model functionality and adaptability.
- Performed clash detection via Navisworks Manage.
- Raised RFIs to resolve design discrepancies.
- Coordinated with site teams & internal MEP for seamless integration.
- Contributed to the development of the Landscape model.

2.The Avenue Mall - Riyadh Saudi Arabia:

- Developed & managed detailed 3D BIM models (LOD 100–500).
- Created intelligent, parametric Revit families aligned with shop drawings and project specifications, enhancing model functionality and adaptability.
- Performed clash detection via Navisworks Manage.
- Raised RFIs to resolve design discrepancies.
- Coordinated with site teams & internal MEP for seamless integration.
- Contributed to the development of the Landscape model.

3.:Dubai Healthcare City Hotel and Residence:

- Created detailed facade shop drawings (LOD 400) & 3D models (LOD 300) in Revit.
- Conducted quantity take-offs for cost estimation.
- Developed custom parametric Revit families per project needs.
- Managed RFIs, submittals, and client communication.
- Provided regular updates and maintained project documentation.

SKILLS

Software Skills

- Revit
- Navisworks
- AutoCAD
- Bluebeam
- BIM 360
- MS Office

Technical skills

- 4D simulation
- Presentation skills
- Time management
- Leadership
- Documentation
- Communication

LANGUAGES

- Tamil
- English
- Kannada

APPRECIATION

- We received positive feedback from the client, scoring 4.5 out of 5 , on the New Phnom Penh International Airport project.

MOOC COMPLETION

Introduction to Internet of Things (12 weeks) - NPTEL, SWAYAM

CERTIFICATIONS

A successful completion of "Internet of Things (IoT) Training programme" conducted by Mahindra Pride Classroom, Naandi Foundation from 2022 to 2023.
