

ARUNKUMAR GOVINDARAJAN

BIM MODELER | CAD DESIGNER

Chennai, India | +91 6381047062 | arungovind129@gmail.com

[Linkedin](#)

Objective

Experienced and detail-oriented Structural BIM Modeler with 8+ years of expertise in 3D modeling, structural design, and coordination for residential, commercial, bridge structures, and water treatment plants. Proficient in Revit, AutoCAD, and BIM workflows, ensuring high-quality project deliverables with a focus on workflow efficiency and model integrity.

Experience

BIM Modeler – CDM Smith, Chennai

Jul 2024 – Present

- Developed and managed 3D models for water treatment plant structures and buildings with roof systems consisting of joists and metal trusses.
- Coordinated with multi-disciplinary teams (Process Mech, Arch, MEP, HVAC) to ensure accurate clash-free designs.
- Utilized BIM workflows to maintain model integrity, ensuring seamless collaboration and accurate project deliverables.

Structural Designer – Assystems India (formerly L&T IEL), Chennai

Feb 2022 – May 2024

- Modeled and drafted RC structures (Bridges, Buildings, and Flyovers) and steel (FOBs, ROBs) structures, meeting BIM LOD 400 standards.
- Created 2D elements in AutoCAD and developed parametric 3D models using Revit families.
- Implemented BIM workflows to ensure accurate extraction of 2D drawings from 3D models for construction documentation.
- Provided technical support, mentoring junior designers, and ensuring compliance with BIM standards.

CAD Designer – CADS India/Accords Rebar, Chennai

Dec 2020 – Jan 2022

- Delivered precise rebar detailing for RCC structures, including machine foundations, columns, beams, and slabs, adhering to UK standards.
- Managed fabrication orders in ASA and Soule formats while ensuring quality and standards.
- Extracted and refined section details using Revit to enhance model accuracy.

Rebar Detailer – Nardil Enterprises & GM Conc. Engg, Chennai

Jun 2019 – Nov 2020 | Dec 2017 – May 2019

- Provided RC detailing for a variety of structures, including buildings, pump stations, machine foundations, and sub-stations.
- Coordinated closely with international clients (US-based) to update designs and resolve discrepancies in model data.
- Utilized BIM workflows to streamline rebar detailing processes and ensure seamless collaboration between teams.

Apprenticeship Training – NITTTR, Chennai

Oct 2016 – Nov 2017

- Created AutoCAD layout plans for sewage and drainage systems and prepared building plans for the campus.
- Supervised estate maintenance works, including plumbing, repairs, and renovation works in collaboration with CPWD contractors.

Education

- SRM, B.Tech 2024 (Ongoing)
- Central Polytechnic College, Diploma in Civil Engg 2016

Professional Skills & Abilities
