PROFILE

Qualified Civil Engineer with hands-on experience as an Architectural BIM Modeler , actively seeking opportunities in Architecture focused BIM roles. Proficient in using software such as AutoCAD, Revit, Navisworks and 3DS Max for creating detailed Architectural drawings and models. Passionate about architecture and design, with a strong understanding of BIM workflows and coordination. Eager to grow in the architectural field and contribute effectively to dynamic design teams.

EDUCATIONAL QUALIFICATIONS

2024 (Present) Post Graduate Diploma in Architectural BIM

CADBIM Centre, Trivandrum

2019-2022 Diploma In Civil Engineering

NSS Poly Technic College ,
Pandalam , Pathanamthitta

Academic Achivement : First Class with
Distinction

CGPA : 9.05

Work Experience

ARCHITECTURAL BIM MODELER INTERN (2024 - 2025)

CADBIM Centre, Trivandrum,Kerala,India

Contributed to International projects based on Saudi Arabia

Project 1 : Hospital Building (Saudi Arabia)

- Upgraded BIM models from LOD 400 to LOD 500 using shop drawings and and redline markups
- Performed Interdisciplinary clash detection and generated detailed clash reports.

Project 1 : Hospital Building (villa project)

- Upgraded models from LOD 300 to LOD 400 by incorporating material submittal.
- Conducted clash detection across other disciplines such as Structure, Electrical and MEP and prepared clash report

ROLES AND RESPONSIBILITIES

- Developed detailed Architectural Models using Revit.
- Coordinate with Structure, Electrical and MEP teams to integrate models and ensure seamless collaboration using Revit and Navisworks for clash detection and resolution.
- Created detailed Level of Development (LOD) 400 and 500.
- Created and managed custom Revit families to match project specific requirements ensuring accurate representation of site condition.
- Produce construction documents using Revit , maintaining proper documentation and ensuring adhering to project standards.

ARCHITECTURAL BIM MODELER

(2023 - 2024)

BIMLAND TECHNOLOGIES, ALAPPUZHA

Contributed to Australian based projects.

ROLES AND RESPONSIBILITIES

- Created detailed 3D Architectural models with accurate dimensions, materials and annotations.
- Ensured all model elements met LOD 350 requirements for geometry, accuracy and embedded data, including precise installation clearances and constructability.
- Maintained BIM standards and ensured compliance with project specifications and industry protocols.
- Created parametric families using Revit.
