

OBJECTIVE

To enhance my educational and professional skills instable and dynamic workplace, where I can serve the organization and to consider every opportunity as a challenge and make every challenge a successful one.

SKILLS

- Technically knowledge of ELV systems, particularly in fire alarm systems, public address systems, CCTV, and access control components, including finished products.
- Technically knowledge of Electrical systems, particularly in villas projects, including Dialux lighting design, load breakup, Power socket layout, conduit and tray sizing, space planning Layout and DG sizing finished product specifications
- Proficient in software tools including: AutoCAD-**Rating 10 of 8** | Revit & Plugins- **Rating 10 of 9** | ProgeCAD | Dia lux Evo 4.16 | SketchUp | Navisworks | Aspire33 for VESDA and Microsoft Office Suite.

Knowledgeable of Revit:

MEP Revit
Architecture Revit
BIM 360
Autodesk cloud-based platform
Point cloud analysis
Family Creation
Team collaboration
Basic Knowledge of Dynamo and some plugins
Conceptual massing - family's and Buildings

Modeling Knowledgeable of Services:

Fire alarm system
Public alarm system
CCTV
Access Control System
VESDA
Electrical
Fire protection system
Gas suppression system
Rodent System

- Skilled in communication, quick to learn, and adept at time management, team building, problem solving, and organizational tasks, with a strong work ethic and a friendly, positive attitude

CURRENT EXPERIENCE

Company Name – (Contract based)
Johnson Control Tyco, Chennai

Position
Senior BIM Modeler

Date Joined
(Aug 2023 to May 2025)

Working on data center and IT office building modeling for Johnson Controls, focusing on Indian-based projects

Responsible for ELV system modeling, developing detailed BIM models from client-provided inputs at LOD 100 and 200, and advancing them to LOD 300 through LOD 500 for as-built documentation. Work primarily focuses on data centers and IT office buildings for Johnson Controls’ India-based projects

INITIAL EXPERIENCE

Company Name – (Contract based)
Tecon Dubai

Position
Junior Draughtsman BIM Modeler

Date Joined
(Feb 2023 to July 2023)

Currently involved in drafting work for Tecon on key projects such as Modoon Villas, Baniyas Villas, and the Sayed National Museum, with a focus on residential and commercial developments

Responsible for developing detailed drafting, sheet preparation, schematic preparation, bill of quantities, cable routing, conduit routing, and general alignment. Work includes LOD-100 based on design intent and LOD-200 for schematic-level development

INITIAL EXPERIENCE

Company Name
Arul Design Consultants – Chennai

Position
Draughtsman & BIM

Date Joined
(Dec 2021 to Jan 2023)

Involved in drafting work for Arul Design on key projects including Casagrand Villas, Dack Developer Villas, various small small residential buildings, and the SRM Hostel building, with a focus on both residential and commercial developments

Responsible for detailed drafting, sheet and schematic preparation, cable routing, and general alignment. Additional responsibilities include Dialux lighting design, electrical load breakup, power socket layout, conduit and tray sizing, space planning layout, DG (diesel generator) sizing, and telephone/data point raceway routing.

DUTIES AND RESPONSIBILITIES

- Ensuring daily completion of modeling tasks and sheet production to maintain consistent workflow and project progress.
- Analyzing operational issues within BIM 360 and implementing timely corrections or providing recommendations to enhance system performance
- Coordinated daily production activities and schedules, ensuring adherence to timelines and quality standards.
- Currently engaged in BIM on-site, working with LOD 350, 400, and 500, and performing clash detection. Additionally, I am involved in the application of BIM across various dimensions, including 2D, 3D, 4D, 5D, 6D, and 7D, to enhance project visualization, coordination, scheduling, cost estimation, sustainability, and facility management.
- Then most properly knowledge lod 200 of schematic design and lod 300 design development also

EDUCATION

Highest Education Level

Diploma – Electrical and Electronic Engineering-1st Class with Distinction-2020

PERSONAL PARTICULARS

Date of Birth : 30.10.2001

Nationality : Indian

Gender : Male

Marital Status : Unmarried
