PROFESSIONAL SUMMARY

As a dedicated and highly skilled BIM Coordinator and Architectural Assistant, I possess a deep understanding of the BIM standard of ISO 19650 and the latest design coordination technology tools. My expertise in modelling software such as **Revit**, **AutoCAD**, **Navisworks**, and **SketchUp**, coupled with my comprehensive knowledge of improvement techniques for enhancing business processes, enables me to execute successful project delivery with accuracy and efficiency.

STRENGTHS AND EXPERTISE

UK BIM Standards	Business Process Improvement	Team Leadership
Design Coordination	Analytical Thinking	Effective Communication
Software Proficiency	Networking & Collaboration	Creative Thinking
Project development	Conflict resolution	Multi-tasking

CORE TECHNICAL SKILLS

Revit | Navisworks | AutoCAD | Sketch up | Rhino | Keyshot | Lumion | Enscape | Photoshop.

EDUCATION

MARG INSTITUTE OF DESIGN & ARCHITECTURE SWARNABHOOMI, (ANNA UNIVERSITY) | TAMILNADU, INDIA.
BACHELOR'S IN ARCHITECTURE. 06/2015 – 05/2020

CARDIFF UNIVERSITY | CARDIFF, WALES, UK
MSC IN BUILDING INFORMATION MODELLING FOR SMART ENGINEERING 09/2021 – 09/2022

- Possess experience in project and module-based construction management, UK BIM standard guidelines ISO 19650, project planning, BEP, CDE, clash detection, and 3D coordination.
- Developed a BIM integration project for an Orthopaedic hospital design (G+2 with a Floor area of 2500 sq.m) during Masters, utilizing Building Services Research and Information Association (BSRIA), Health Technical Memorandum (HTM), Health Building Notes (HBN), and ISO 19650 for guidance on the design and planning of Hospital buildings.
- Efficiently convert project requirements, including layout and specifications, into detailed Mechanical Design Packages under RIBA stages 2, 3, 4, and 5. Experienced working with BIM 360 and coordinating MEP services within the model.
- Created a 4D and 5D BIM model using Navisworks to showcase clash detections, schedule modifications, and 3D coordination among multiple disciplines, including quantity and cost take-offs from the model and the document control – checking online portals for new drawings.

PROFESSIONAL EXPERIENCE

BRITAIN ENERGY | LONDON, UK 12/2023 - 01/2025

ARCHITECTURAL ASSISTANT

- Versatile and experienced Architectural Assistant with a strong background in sustainable design and home improvement solutions. Collaborated with diverse clients to provide customized heating and insulation solutions, aligning with ECO4 scheme guidelines and British standards.
- Led energy-efficient project design and implementation, ensuring compliance with industry standards and regulations. Managed project schedules and budgets effectively, leading to significant energy savings and customer satisfaction.

- Expertise in sustainable and energy-efficient design, as well as skill in AutoCAD, Revit, project management, and coordination. In-depth understanding of heating and insulation materials.
 - Excellent teamwork and communication abilities.
-

VISTAR CONSULTANTS I BENGALURU | INDIA

06/2020 – 05/2021

JUNIOR BIM ARCHITECT

- Designed architecture and interior construction drawings and details for large-scale Transportation projects, created 3D modeling and digital renderings for multiple commercial interiors in Revit, and delivered quality results within a stipulated time, utilizing my drafting and 3D modeling skills.
 - Integrated and coordinated multi-disciplinary Revit 3D models for Residential buildings, ensuring that the models created by all the discipline teams worked together to form a Federated BIM model of LOD 300.
 - Conducted regular live model reviews with the digital project delivery team to brief the client on key updates throughout the project lifecycle, being able to effectively communicate. Creation of custom industry-standard Revit MEP families.
 - Steered on-site risk assessments throughout the project execution and QC checks on the execution of drawings during the construction phase for housing interiors, exhibiting my skills in project management.
-

RAMANAN ARCHITECTS I TRICHY | INDIA 11/2018 – 04/2019

JUNIOR ARCHITECT

- Drafted project specifications, BOQs, contractor quotations, and resource requirements involved in the project, and carried out periodic site visits to ensure project quality and project delivery progress, displaying my skills in project management.
 - Ensured customer contentment by conducting site inspections to confirm that the work was progressing in accordance with the project's timeline, reflecting my skills in communication and customer satisfaction.
 - Prepared and presented store packs at the approval meetings, ensuring they were approved by the board, being able to coordinate and present information effectively.
 - Carried out inspections and approved the quality of work ensuring that it is according to customer and company standards, utilising my inspection and analytical skills.
-

STUDIO MAVERICK DESIGN I BENGALURU | INDIA 05/2018 – 10/2018

JUNIOR ARCHITECT

- Developed proposals and bills of quantities using Microsoft Excel and executed a Tea Lounge renovation project within a stipulated timeframe of 3 months, utilizing my skills in project management and Excel.
 - Directed and managed the workload of 3 team members during the brief absence of the team leader, extracting and evaluating the periodic performance reports to ensure efficient functioning.
 - Modified existing designs, worked collaboratively with design teams, maintained design documentation as per required codes and standards, and managed project timelines.
-

KEY ACHIEVEMENTS

- Developed and integrated 3D, 4D, 5D & 6D principles and applied them to software applications such as AutoCAD, Revit Architecture, Revit MEP, Navisworks, Lumion 3D, and associated plugins, gaining over 2+ years of experience in the field.
 - Established protocols, scoping work, and project delivery strategies for BIM process implementation, demonstrating my skills in project management and process implementation.
 - Adopted the ISO 19650 naming convention to reduce file duplication issues, showcasing my adherence to industry standards and attention to detail.
 - Demonstrated innovative problem-solving capabilities by integrating live walkthroughs and addressing space concerns with detailed Enscape visualizations, which saved several hours of additional 3D work, highlighting my skills in innovative thinking.
 - Utilised continuous improvement techniques to eliminate non-value-added activities in operational processes to reduce lead time by 20% and overall costs, exhibiting my skills in process improvement.
-

LICENSES & CERTIFICATIONS

- Autodesk Certified Professional, Revit Architecture.
 - Registered Architect (Reg. under Council of Architecture, India) - (CA/2020/126329).
 - Rhinoceros & Grasshopper certified user: Design Interventions, Chennai.
