SUMMARY

- Motivated and detail-oriented Structural BIM Modeler with 6 months of experience supporting GCC-based projects. Proficient in Revit Structure, AutoCAD, and Navisworks for creating structural models, preparing construction documentation, and assisting in clash detection and coordination. Experienced in producing general arrangement drawings and ensuring compliance with BIM standards. A fast learner and effective team player, committed to continuous improvement and contributing to high-quality, collaborative design environments.

KEY SKILLS

- | | |
|------------------------------|------------------------------|
| • Revit Modeling | • Model Updating |
| • AutoCAD Drafting | • Construction Documentation |
| • 3D Structural Modeling | • Clash Detection |
| • Structural Detailing | • Navisworks |
| • LOD (Level of Development) | • BIM Coordination |
| • Drawing Preparation | |

WORK EXPERIENCE

GCC PROJECT EXPERIENCE

October 2024 – Present

Gulftech MEP Design Solutions LLP, Thrissur, Kerala, India

Key Responsibilities

- Assisted in developing structural 3D models using Autodesk Revit and AutoCAD, focusing on elements such as beams, columns, foundations, and slabs.
- Prepared precise 2D and 3D structural drawings, incorporating material specifications, dimensions, and project-specific requirements.
- Contributed to model development across various Levels of Detail (LOD 100 – LOD 400), gaining a clear understanding of model evolution throughout project phases.
- Supported the preparation and maintenance of comprehensive construction documents, including schedules, annotated drawings, and technical details.
- Assisted in conducting clash detection using Navisworks to identify design conflicts and collaborated with cross-disciplinary teams to resolve issues.
- Worked closely with engineers, senior draftsmen, and BIM modelers to ensure seamless integration of structural designs within multidisciplinary project workflows.
- Updated BIM models in response to design changes or revisions, maintaining consistency and accuracy across project files.
- Ensured that all drawings and models adhered to relevant industry standards, building codes, and client specifications.
- Actively pursued learning opportunities to enhance proficiency in BIM software, construction methodologies, and structural design standards.

TECHNICAL SKILLS

- **BIM SOFTWARE:** Revit, AutoCAD (2D/3D Drafting), Navisworks.
- **STRUCTURAL DRAFTING:** Creation of structural drawings and details, including foundations, beams, & columns.
- **LOD KNOWLEDGE:** Understanding of LOD 100 to LOD 400 and how models evolve through each stage.
- **BASIC SOFTWARE TOOLS:** Microsoft Office Suite (Excel, Word, PowerPoint).
- **FILE MANAGEMENT:** Basic familiarity with file management systems (e.g., cloud storage, file sharing).

EDUCATION

B.TECH IN CIVIL ENGINEERING

2019 – 2023

Sree Narayana Guru College of Engineering and Technology, Payyanur, Kerala, India

LANGUAGES KNOWN

- English
- Hindi
- Malayalam

PERSONAL STRENGTH

- **PROBLEM SOLVER** – Approaches challenges with a solution-oriented mindset and technical insight.
- **STRONG WORK ETHIC** – Consistently meets deadlines and maintains high standards of quality.
- **ADAPTABLE** – Adjusts well to dynamic project environments and evolving client needs.
- **ORGANIZED** – Maintains well-structured files, documentation, and task priorities.

PERSONAL DETAILS

Gender	: Female
Date of Birth	: 15/10/2000
Nationality	: Indian
Marital Status	: Single
