

RESUME

Name : ARUMUGAKUMAR
BIM Modeler : Structure , Architecture.
BIM Experience : 3 Years.
Mail ID : arumugakumar2001@gmail.com

BIM Work Experience:

BIM Modeler, *Pinnacle Infotech Solutions.*, Madurai, India - (Present)

Experience Summary:

As a team player with a positive attitude, I could use and enhance my knowledge and talent for the development of both myself and organization and myself as a BIM modeller. Managing and executing BIM projects involving multiple trades, Collaborating with Architects, Engineers and other members of the design and construction team and prepare required Detailed drawings and 3D models using BIM software.

Software platforms:

- ✓ Revit Architecture
- ✓ Revit Structure
- ✓ Auto CAD
- ✓ Navisworks
- ✓ BIM 360
- ✓ RECAP (Scan to BIM)

Projects Experience :

1. The Avenues Mall -Riyadh.

The project scope was to develop 3D models for both Architectural and structural Shop Drawing as per the client input based on LOD 350.

- ✓ 3D Modeling done for both arch and structure for 7+ floors.
- ✓ Structural modeling and Arch modeling and shop drawings are Completed more than 15+ plots in Avenue mall.
- ✓ The Avenues Mall, Arch modelling and shop drawings are done with MEP coordination.
- ✓ Creating parametric Revit families and providing clash free models.
- ✓ Review of Revit model in Navisworks to Submit the Clash free model.

2. Dubai Aviation Engineering project.

The project scope was to developing the BIM model by scanning data.

- ✓ Developing accurate construction 3D models from gathering inputs from scan to BIM.
- ✓ Coordinate with trades to ensure clash issues, eliminate errors and assure all standards are followed.
- ✓ Leading the process of point cloud scan needs to be modeled in a series of precesses with verification of the point cloud scan and file insertion in revit.

3. Noida International Airport -TATA Projects Limited.

- ✓ Working with TATA team for project coordination and to complete the project on time.
- ✓ Coordination with MEP, FAGN, ELGN, ITGN.
- ✓ Working under the guidance of TATA management.
- ✓ 3D Modeling of the Building in Architecture.
- ✓ Create Shop Drawing for wall cladding, toilet, flooring etc.,

4. Jeddah Central Development Stadium

The project scope was to develop 3D models for both Architectural and structural Shop Drawing as per the client input based on LOD 350.

- ✓ 3D Modeling done for structure more than 25 zones.
- ✓ Coordination with MEP and providing clash free models.
- ✓ Structural modeling and shop drawings are Completed for 25 zones.

Responsibilities :

- ✓ Revit model developing from various inputs like Cad drawing & PDF.
- ✓ Flexibility – Willing to travel, willing to learn new languages.
- ✓ Preparing standard drawings for Residential, commercial & Industrial buildings.

Qualification:

UG	B.E. in Civil Engineering from Government College Of Engineering, Bodinayakkanur.
-	2018-2022 with CGPA -8.00

Languages Known: English, Tamil.

Nationality: Indian.

Status: Unmarried.

Hobbies: Travelling.

Sex: Male.
