PROJECT EXPERIENCE

Project: HUNTERS POINT SHIPYARD BLOCK 52 & 54

Location: San Francisco

Description:

Modeled a shipyard block 52 & 54 building in Revit, including Column, Beams, and foundations(wall footings & isolated footings). Utilized BIM tools for scheduling, tagging, sheets, drawing generation.

Project: RED SEA INTERNATIONAL AIRPORT

Location: Saudi Arabia

Description:

Modeled surface, road alignments, profile, corridors and pipes and structures models for airport access roads in Autodesk Civil3D.

Project: INTEL CORPORATION BUILDING(TRESTLE-F)

Location: ARIZONA

Description:

Modeled a steel frame structures and stairs in Tekla Structures with accurate detailing of beams, grating, handrails and theirs connections. Generate GA Drawings, parts drawing, assembly drawing and multi drawing and material lists for fabrication.

Project: ANR PIPELINE WEYAUWEGA COMPRESSOR STATION

Location: WISCONSIN

Description:

Provided connections, assemblies, bolts of Revit model transferred to Autodesk Advance steel. Generated GA part, assembly and multi drawings and material lists for fabrication.

UNIQUE TECHNICAL EXPERIENCES

- 3D Model Design Using Revit & Tekla
- Clash detection for various disciplines and 4D simulation using Navisworks
- Road design using Civil 3D

ABOUT ME

Results-driven BIM Engineer with 1 year of experience in Building Information Modeling (BIM) and Management. Adept at implementing advanced BIM workflows, with experience in all type of structure modeling, and Steel Detailing, Report Generation and work with collaborative environment.

EDUCATION

B. Tech Civil Engineering
Aliah university, Kolkata
2016-2019

BIM Ready civil:
International Certification In
BIM Structure

SKILLS

Team Collaboration
Quick Learner
Problem solving

SKILLS

SOFTWARE/TECHNOLOGY	PROFICIENCY LEVEL
Building Information Modeling (BIM)	Intermediate
3D Modeling and Visualization	Intermediate
Clash Detection and Resolution	Expert
Project Coordination and Management	Intermediate
Technical Documentation and Reporting	Intermediate
Team Collaboration and Communication	Expert
Data Management and Analysis	Intermediate
Revit	Expert
AutoCAD	Expert
Enscape	Intermediate
Bluebeam	Intermediate

UNIQUE TECHNICAL EXPERIENCES

- 3D Model Design Using Revit & Tekla
- Clash detection for various disciplines and 4D simulation using Navisworks
- Road design using Civil 3D

WORK EXPERIENCE

BIM INTERN

TECHNOSTRUCT LLC, CALIFORNIA

September 2024 – May 2025

- Lead BIM implementation for Structure Project.
- Develop and manage 3D models using Revit, ensuring accuracy and compliance with project specifications.
- Perform clash detection and resolve issues to minimize construction delays and rework.
- Collaborate with architects, engineers, and contractors to integrate BIM into the design construction processes.
- Create RFIs and present technical reports and project updates to stakeholders.
- Prepare shop drawing & BOMs.
