

HARIHARAN S

Design engineer

SUMMARY

Detail-oriented and motivated BIM Specialist with a strong foundation in Building Information Modeling and a passion for innovative design solutions. Proficient in utilizing software such as Revit and AutoCAD to create accurate 3D models and enhance project collaboration. Eager to leverage technical skills and a keen eye for detail to support project teams in delivering high-quality results. Committed to continuous learning and professional growth in the AEC industry.

EDUCATION

B. E - CIVIL ENGINEERING

RVS TECHNICAL CAMPUS,COIMBATORE.
2018- 2022

SKILLS

- BIM modeling
- Structural drafting
- Rebar layout design
- Formwork design
- IFC collaboration
- CAD to BIM
- Material takeoffs

EXPERTISE

- Revit
- Auto CAD
- Microsoft office
- BIM Collab Zoom
- SofiSTik

WORK EXPERIENCE

BESTEN ENGINEERING AND CONSULTANTS PVT LTD.

CAD Draftsman ————— Dec 2022-Dec 2023

- Utilized CAD software to create detailed structural & architectural drawings and layouts for various construction projects.
- Assisted in the development and modification of design specifications under the guidance of senior engineers.
- Collaborated with architects and engineers to interpret design requirements and convert them into technical drawings.
- Supported senior design engineers by creating and updating technical drawings to refine structural and architectural layouts and details.
- Supported senior design engineers by creating and updating technical drawings to refine structural and architectural layouts and details.

J&F INDIA PVT LTD

Design engineer ————— Feb 2023-Present

- Prepared detailed reinforcement drawings and schedules & IFC to support onsite construction and fabrication by Euro standards.
- Modeled rebar layouts in 3D to optimize structural integrity and material usage in civil engineering projects.
- Implemented CAD and Revit & ACC -based workflows to enhance design efficiency and accuracy in structural and architectural modeling.
- Created detailed 3D BIM models for civil engineering projects to improve design coordination and reduce conflicts.
- Designed and developed detailed engineering plans and specifications for civil construction projects using CAD & Revit software.
- Collaborated closely with project managers and site engineers to customize formwork designs according to site-specific constraints.
- Developed customized formwork design solutions to optimize material usage and reduce construction costs.
