MURALI NAGAR EAST BALAJI NAGAR, VISAKHAPATNAM-530007.

Current Designated as junner BIM modelar with 2+ years of experience in BIM coordination, modeling, and execution for infrastructure and building projects using Revit, Navisworks, and AutoCAD. Skilled in clash detection, and multidisciplinary coordination.

EDUCATION

- M.TECH (CIVIL) 2021 YEAR OF PASSED OUT

PROFESSIONAL EXPERIENCE

JR. BIM MODELING

Clove Technology Pvt. Ltd. – Visakhapatnam
[Aug 2021-2022 Dec)

BIM MODELING

Dyno Pts Design and Engineering Solutions Pvt.
Ltd. Visakhapatnam
Jan 2024 – Still Working

KEY PROJECTS

- Vamsiram Manhattan – (Hyderabad)
- South town (Sweden)
- Travis house (UK)
- Martin galleries (UK)
- Signature towers (USA)

KEY RESPONSIBILITIES

- Lead BIM coordination for complex projects, ensuring high-quality LOD 400/500 models for architecture, structure, and MEP disciplines.
- Perform clash detection and resolve design conflicts using Navisworks Manage
- Collaborate with design teams and contractors to maintain BIM standards and project timelines.
- Reviewing of Weekly & Monthly Progress reports for project to submissions to client
- Mentor junior BIM staff and assist in BIM execution planning.
- Creating Detailed Revit BIM Models, Families, 2D Shop Drawings, As Built Drawings with input from Client and various other sources.
- Updating Structure Model using by Point Cloud Data & Provided as Built Drawings from Contractor
- Collaborating and Handling the Central file and creating different work sets for each discipline of team to access the files for modelling
- Assisted in creating coordination drawings and clash reports.
- Collaborated with senior engineers to update and maintain BIM models.
- Generated quantity take-offs and material schedules from BIM models.
- Supported site teams with BIM-related technical issues.
- Assisted in basic BIM modeling tasks under supervision.
- Preparing, Modelling & Detailing for the various types of Architectural & Structural Elements (Walls, Curtain Walls, Doors, Windows, Floors, Ceilings, Roofs, Wall openings, Ramps, Stairs, etc.).
- Learned BIM software tools like Revit and Navisworks.
- Supported project teams with documentation and model updates.
- Participated in training sessions on BIM processes and standards.

SOFTWARE SKILLS

- Revit Architecture, Structure
- Navisworks
- AutoCAD
- BIM 360
- MS Office & Excel
