SKILLS

- BIM Modelling
- CAD Drafting
- Quantity Surveying
- 3D Modelling
- Site Coordination
- Project Estimation
- Design Compliance
- Documentation Management
- Model Updating
- Technical Analysis
- Plan Execution
- Design Collaboration

SOFT SKILLS

- Communication
- Problem-Solving
- Adaptability
- Flexibility

SUMMARY

Seeking a challenging position in an architecture firm or BIM company to apply my expertise as a CAD Draftsman, Architectural 3D Modeler, BIM Engineer, or BIM Modeler. I aim to leverage my skills in drafting, 3D modeling, and BIM processes to contribute effectively to innovative projects and deliver high-quality architectural solutions within a collaborative environment.

EXPERIENCE

BIM Engineer, 09/2023 - Current

BIMAGE India Consulting Pvt Ltd – Ahmedabad, Gujarat, India

- Develop BIM models using Revit Architecture and Structure software.
- Perform quantity surveying for precise project cost estimation.
- Review project models to ensure adherence to standards.
- Update BIM models based on design changes or revisions.
- Coordinate with multidisciplinary teams for seamless model integration.
- Assist in project planning and scheduling using BIM tools.
- Generate 3D visualizations for effective client presentations.
- Maintain documentation for all BIM-related tasks efficiently.
- Implement BIM standards to ensure quality and consistency.
- Troubleshoot and resolve issues in BIM model development.
- Conduct regular model checks for quality assurance compliance.
- Participate in meetings, providing valuable BIM-related insights.
- Support design teams with technical guidance on BIM practices.
- Integrate data from multiple sources into BIM models.
- Analyze design conflicts and suggest timely effective solutions.
- Provide BIM software training to junior team members.
- Conduct site visits to verify accuracy of models.
- Ensure model coordination with architectural, structural, MEP disciplines.
- Assist in preparing construction documentation and shop drawings.
- Collaborate on developing BIM execution plans for projects.
- Stay updated with BIM technology advancements and best practices.

WORK EXPERIENCE
