

SYED BAQIR ALI

OBJECTIVE

Aspiring BIM professional with hands-on experience in structural modeling, coordination, and documentation using industry-standard tools such as Revit, AutoCAD, and SDS2. Eager to contribute to innovative and collaborative BIM workflows within a dynamic team. Committed to delivering accurate, clash-free models and supporting project success through efficient Building Information Modeling practices.

EXPERIENCE

BIM Modeler

Qubatic

July-2024 -
Currently working

Project :- Dubai Hospital

- Assisted in developing accurate 3D structural models using Autodesk Revit for commercial and residential building projects.
- Coordinated with architecture and MEP teams to ensure clash-free model integration.
- Created detailed drawings, sheets, and annotations as per project standards and client requirements.
- Followed BIM Execution Plans (BEP) and maintained model accuracy and LOD standards.
- Gained practical experience in Revit Families, parametric modeling, and project collaboration using BIM workflows.
- Contributed to design review meetings and model updates as per engineer or architect instructions.

Trainee BIM Modeler

Seedec (Internship in BIM)

January -2024 -
June-2024

- Assisted in developing and modifying structural BIM models using industry-standard software such as Revit,SDS2.
- Collaborated with senior engineers and architects to interpret structural drawings and translate them into accurate 3D models.
- Contributed to clash detection, coordination, and drawing extraction processes to support structural detailing and construction documentation.
- Gained hands-on experience with BIM workflows, model

management, and project coordination in a multidisciplinary environment.

- Maintained model accuracy and integrity by following company BIM standards and guidelines.

2D&3D Designer/Site Engineer November-2022 - January-2024
SIGMA CONSULTANT AND CONSTRUCTION

- Utilized AutoCAD and SketchUp to create detailed 2D and 3D design models for various projects, including architectural plans and product designs.
- Developed accurate and high-quality renderings, ensuring all designs met client specifications.
- Conducted site visits to gather measurements, assess project progress, and ensure designs were being accurately implemented on-site.
- Received positive feedback from clients for innovative design solutions and attention to detail.

Site Engineer May-2021 - July-2022
Vardhaman Association and Construction

I have worked on site of G+3 Residential Building as Site Engineer in this my Duty is to:

- Visited project sites during construction to monitor progress and consult with contractor.
- Recorded daily events and activities in site diary to evaluate process and improve productivity.
- Ordered and tracked delivery of Construction materials and supplies from Vendors.
- Monitored execution of contract work for compliance with design plans and specifications.
