Location : Pathanamthitta, Kerala, India

PROFILE

Qualified Civil Engineer with specialized training in Architectural BIM Modeling and experience in developing detailed 3D models, architectural drawings, and coordinated construction documentation. Proficient in Autodesk Revit, AutoCAD, and Navisworks, with working knowledge of BIM coordination and clash detection. Passionate about using technology to enhance design quality and project efficiency. Actively seeking opportunities to grow within the AEC industry.

EDUCATIONAL QUALIFICATIONS

- | | |
|-----------------------|--|
| 2024 (Present) | Post Graduate Diploma in Architectural BIM
CADBIM Centre, Trivandrum |
| 2019-2022 | Diploma in Civil Engineering
NSS Polytechnic College , Pandalam ,Pathanamthitta
CGPA : 9.07 |

EXPERIENCE

ARCHITECTURAL BIM MODELER INTERN

CADBIM centre, Thiruvananthapuram, Kerala

2024-2025

Contributed to International projects based on Saudi Arabia

Project 1: Hospital Building (Saudi Arabia)

- Upgraded BIM models from LOD 400 to LOD 500 using shop drawings and redline markups
- Performed interdisciplinary clash detection and generated detailed clash reports

Project 2: Hospitality Building (Villa Project)

- Upgraded model from LOD 300 to LOD 400 by incorporating material submittals
- Conducted clash detection across other disciplines such as Structural, Electrical, and MEP and prepared clash report

Role/Responsibility Description

- Modeling using Revit for Architectural, Interior and Landscaping elements.
- Coordinated with Structural, Electrical and MEP teams to integrate models and ensure seamless collaboration using Revit and Navisworks for clash detection and resolution

- Identified and resolved model conflicts through clash detection using Navisworks, ensuring clearances were achieved before construction phases
- Created and managed custom Revit families to match project specific requirements ensuring accurate representation of site condition
- Produced construction documents using Revit, maintaining proper documentation and ensuring adherence to project standards

ARCHITECTURAL BIM MODELER

BIMLAND Technologies, Alappuzha, Kerala

2023- 2024

Contributed to Australia based projects

Role/ Responsibility Description

- Created detailed 3D Architectural models with accurate dimensions Materials and annotations.
- Maintained BIM standards and ensured compliance with project Specifications and industry protocols.
- Ensured all model elements met LOD 350 requirements for geometry, accuracy and embedded data, including precise installation clearances and constructability.
- Produced high-quality 3D renders, walkthroughs and animations using lumion
- Created detailed parametric families using Revit

EXPERTISE

- Autodesk Revit.
- Navis work
- AutoCAD
- 3Ds max
- V-ray
- Lumion

STRENGTH

Hardworking, Project Management, Responsible, Self Motivated, Adaptable

LANGUAGE

English

Malayalam

DECLARATION

I hereby declare that all information given above is true to the best of my knowledge

Place : Pathanamthitta

Date :

Yours faithfully
