 [Meera Pillai K A](#)

BIM HVAC ENGINEER / MODELER

A detail-oriented and technically proficient HVAC BIM Modeler & Designer with extensive experience in creating and managing 3D building models for HVAC systems using advanced Building Information Modeling (BIM) software. Adept at collaborating with multidisciplinary teams to deliver accurate, efficient, and coordinated HVAC designs across MEP disciplines.

PROFESSIONAL EXPERIENCE

JSE ENGINEERING PVT. LTD.,

MAY 2024 - PRESENT

HVAC BIM MODELER & DESIGN ENGINEER INTERN

- Developed 3D models for HVAC using architectural and structural layout as references.
- Preparation As-built Cad drawings from mark up as per site condition for all Mechanical service.
- Calculation and design the sizes of Ducts, Grills, Air Terminals etc.,
- Conducted regular model reviews in Navisworks with project stakeholders to identify and address design coordination challenges.
- Collaborated with multidisciplinary teams to ensure accurate integration and implementation of HVAC designs.
- Conducted HAP (Hourly Analysis Program) calculations, ESP Calculation , Pump Head Calculation, Ventilation Calculations for HVAC system design.

EDUCATION & CERTIFICATIONS

Bachelor in Production / Mechanical Engineering

2020 - 2024

GOVERNMENT COLLEGE OF TECHNOLOGY, COIMBATORE

Grade - CGPA 8.65 (86%)

HSC

2019 - 2020

TILAK VIDYALAYA HR. SEC. SCHOOL, TIRUNELVELI

Percentage - 84.6%

SSLC

2017 - 2018

CHTHRA MATRIC HIGHER SECONDARY SCHOOL, TIRUNELVELI

Percentage - 89.6%

TECHNICAL SKILLS

- AutoCAD
 - Revit MEP (BIM)
 - HAP (Hourly Analysis Program)
 - McQuay Duct Sizer
 - Navisworks
 - MS Office
-

PROJECTS & RESPONSIBILITIES

- **RUA AL MADINAH SUPERBLOCK 5 (SAUDI)**
 - **RESIDENTIAL VILLA PROJECTS**
 - **ABUDHABI FUND BUILDING**
 - Created and maintained highly intricate 3D models of HVAC systems, including ductwork, piping, and associated equipment, on Revit and Navisworks.
 - Worked simultaneously with other MEP disciplines to ensure proper integration and adherence to project guidelines.
 - Performed clash detection analysis with the highest level of coordination to reduce design conflicts.
 - Creating and editing MEP families with Parameter in Revit.
 - Conducted HAP (Hourly Analysis Program) calculations, ESP Calculation , Pump Head Calculation for HVAC system design.
 - Developed Revit models for building MEP systems, focusing on accurate representation of HVAC.
 - Preparation of various Levels of Development (LOD) 100 to 500 drawings.
-

LANGUAGE

- English
 - Tamil
-

CERTIFICATION

- Certificate in Diploma in HVAC and BIM (Building Information Modeling at JSE Engineering (An Autodesk Authorized Training Centre).
 - Certified in AutoCAD
 - Certified in Revit MEP
-

SOFT SKILLS

- Team Co Ordination
 - Team Management
 - Time Management
 - Self Motivated
-

DECLARATION

I hereby declare that all the information given above is true and correct to the best of my knowledge.
