

DHINESH G

BIM MODELER
(ARCH/STRUCTURE)

+91-9597319671

59, SANJEEVERAYAN KOVIL
STREET CUDDALORE-PORT

gdhinesh665@gmail.com

OBJECTIVE

Motivated BIM professional with Almost 2 years of experience in Revit-based architectural and structural modeling, looking to grow within a collaborative environment that values innovation, technical precision, and interdisciplinary coordination.

EDUCATION

ANNAMALAI UNIVERSITY CGPA-8.5 B.E CIVIL ENGINEERING	2018-2022
KRISHNASAMY MEM MATRIC HIGHER SEC SCHOOL HSC	2018
KRISHNASAMY MEM MATRIC HIGHER SEC SCHOOL SSLC	2016

SKILL

- AUTODESK REVIT
- NAVISWORK
- COMMUNICATION
- AUTOCAD
- STADD PRO
- SKETCHUP BASICS

WORK EXPERIENCE

DIGITAL TWIN BIM CONSULTANCY - CHENNAI
BIM MODELER - (ARCH & STRUCTURE)

AUG 2024-PRESENT

- Developed highly detailed architectural & structural BIM models to construction documentation stage.
- Coordinated architectural, structural, and MEP models to ensure design consistency and construction feasibility.
- Detected and resolved clashes between architectural, structural, and MEP systems using Navisworks Manage.
- Supported team in transitioning models from design to construction stages (LOD 400).
- Ensured shop drawings complied with industry standards, project specifications, and BIM Execution Plan (BEP).

ASHVA BIM SOLUTION - CHENNAI
BIM MODELER - (ARCH & STRUCTURE)

JAN 2024-AUG 2024

- Produced accurate and detailed shop drawings for architectural and structural elements, including dimensions, annotations, and material specifications
- Supported clash detection and conflict resolution through BIM tools (Navisworks, Revit) to ensure that drawings were error-free and construction-ready.
- Maintain proper utilization of company/project standards templates and content
- Generated 2D detail drawings, plans, sections, elevations, and Schedule Directly from the 3D model using Revit software.
- Collaborated closely with clients to ensure accurate project execution.

CIVIL SITE ENGINEER

- Supervised site execution, ensuring that construction work complied with project specifications and approved drawings.
- Inspected completed work to ensure compliance with architectural and structural drawings.
- Generated 3D elevations and designs using Revit Architecture.

AXISET ENGINEERING PVT LTD – CHENNAI**AUG 2022–FEB 2023****TRAINEE – STRUCTURAL DESIGN ENGINEER**

- Utilized Excel software for calculations and AutoCAD software for detailing.
- Designed R.C.C Beams, Slabs & Staircases in various Residential projects
- performed periodical site visits for each stage of construction to inspect quality of the Building.
- Provide on-site explanations of structural drawings to site personnel and offer technical assistance to resolve field issues
- Ensure the most economical design possible without compromising the safety and stability of the structure.

PROJECTS INVOLVED

DIGITAL TWIN BIM CONSULTANCY

- INSTITUTE OF BANKING STUDIES – KUWAIT
- QATAR ACADEMY SIDRA – QATAR
- LUSAIL PLAZA TOWER – QATAR

ASHVA BIM SOLUTION

- KING SALMAN PARK – SAUDI ARABIA

LANGUAGES

- TAMIL (Native)
- ENGLISH (Proficient)
