Career Objective

Detail-oriented and highly motivated BIM professional with a strong background in construction site engineering. Over three years of experience managing on-site construction activities, coordinating teams, and ensuring project compliance. Seeking to leverage expertise in Building Information Modelling (BIM) to optimize project workflows, improve collaboration, and drive efficiency in construction planning and execution.

Education

Christian Polytechnic College
Diploma in civil engineering 2020 [83%]
Government Boys Higher Secondary School
[2018] – 60.75%
Government Boys Higher Secondary School
[2016] – 75.57%

Technical Skills

- ✓ BIM Modeling & Detailing: Revit (Architectural, Structural, MEP).
- ✓ Clash Detection & Coordination: Navisworks.
- ✓ Quantity Takeoff & Estimation: Revit.
- ✓ Other Software: AutoCAD, Lumion, MS Word, MS Excel

Professional Experience

Construction Site Engineer
[Asvin Construction], [Coimbatore] | [2020-2022]

- Supervised and coordinated on-site construction activities, ensuring adherence to project specifications and timelines.
- Managed quantity takeoffs and cost estimations to optimize resource allocation.

[Titan Engineering and Automation Ltd], [Hosur] | [2022-2024]

- Collaborated with architects, engineers, and subcontractors to resolve design and execution challenges.
- Conducted quality control checks and ensured compliance with safety regulations and industry standards.

Certifications & Training

- ✓ BIM Course – Cadd Centre Coimbatore (Ongoing).
- ✓ Hands-on experience with BIM execution, project collaboration, and 3D model integration.

Project Experience

- 🏥 Hospital Building (BIM Model) – Cadd Centre Coimbatore.
- ✓ Modeled architectural & structural components in Revit.
- ✓ Extracted BOQ & cost estimates for material planning.
- ✓ Integrated structural, MEP & architectural models for clash-free design.
- ✓ Created visual walkthroughs & 4D sequencing in Navisworks.

Languages

- ✓ English
- ✓ Tamil
