 Md Ajar

Summary

Dedicated Revit MEP modeler with 1 year of experience in mechanical and plumbing systems. Skilled in accurate 3D modeling, documentation, and cross-functional collaboration. Proven ability to deliver coordinated and clash-free MEP designs aligned with project standards and timelines.

Work Experience

Jr.MEP MODELER-BIM CADD Technical Solution (04/2024 – 10/2024): *Chennai*

- Completed professional training in Revit MEP with hands-on experience in mechanical and plumbing modeling.
- Worked on Scan to BIM projects, accurately converting point cloud data into detailed Revit models.
- Assisted in clash detection and coordination using Revit to identify and resolve issues before construction.

MEP MODELER-Kaleidoscope (11/2024 – Present): *Chennai*

- Created accurate 3D models for HVAC and plumbing systems using Revit.
- Performed clash detection and coordination using Navisworks to identify and resolve design conflicts.
- Developed construction documentation and sheet layouts to support project delivery.
- Collaborated with project teams to ensure MEP designs met quality and performance standards.

Education

Bachelor of Engineering: Vel Tech High Tech Engineering College 2019 - 2023
Mechanical Engineering: **CGPA - 7.59**

HSC/12th Grade: The Muthiyalpet Higher Secondary School 2018 - 2019
Percentage - 71

SSLC/10th Grade: The Muthiyalpet Higher Secondary School 2016 - 2017
Percentage - 86

Technical Skills

- AUTOCAD
- REVIT MEP
- NAVISWORKS

Project Handled

- CHICAGO – Scan to BIM project focused on plumbing modeling.
- MMSPA – HVAC modeling and clash detection coordination.
- KEC – Plumbing modeling, clash resolution, and sheet creation.
- TXG – WIR (Work Inspection Report) updates and sheet work.
