Summary

Aspiring Electrical and Electronics Engineer with expertise in Revit MEP, and BIM, seeking opportunities to apply technical and leadership skills in designing and optimizing electrical systems in a dynamic organization.

Skills

Technical Skills:

- C and C++.
- Revit MEP Design and Modeling.
- Building information modeling (BIM)
- Power Distribution System Design.
- Electrical Load Calculation and Circuit Designing.
- Basic Knowledge of Python, Microsoft Office and Microsoft Excel

Soft Skills:

- Time Management and Communication.
- Problem-Solving and Analytical Thinking.
- Quick Learner and Adaptable.

Education

Bachelor of Engineering (BE) - Electrical and Electronics Engineering (EEE)

Mepco Schlenk Engineering College, Sivakasi | Tamil Nadu, India May 2025 | CGPA:7.42/10

Higher Secondary Certificate (HSC)

S.H.N.V. Hr. Sec. School, Sivakasi 2021 | Percentage: 81.5%

Secondary School Leaving Certificate (SSLC)

S.H.N.V. Hr. Sec. School, Sivakasi 2019 | Percentage: 71.2%

Projects

Coconut Harvesting Drone

- Designed and developed a drone-based system for automated coconut harvesting.
- Implemented autonomous identification and harvesting techniques to reduce labor costs by 30% and enhance safety.
- Utilized computer vision and machine learning algorithms for object detection and precision harvesting.

Magnetic Induction-Based Underwater Communication

- Researched and implemented low-frequency magnetic fields for reliable underwater communication.
- Addressed challenges related to salinity and temperature variations for improved signal transmission.
- Enhanced signal reliability by 25% through algorithm optimization and system design improvements.

Certifications

- NPTEL Certification: Joy of Python
- Revit MEP Certification (CADD Centre)
- PCB Design & Circuit Design Certification
- MePro English Fluency Certification (Pearson Platform)

Volunteer Experience

- Educated over 50 students on ON-grid and OFF-grid solar PV systems, simplifying complex electrical concepts.
- Assisted and mentored over 30 school students at the Mepco Expo 2024, enhancing their understanding of engineering concepts.
