

JITHIN P

I have completed my Bachelor of Architecture at the School of Planning and Architecture, Bhopal. Over the course of my academic journey, I have developed a strong foundation in architectural design, planning principles, and sustainable development. I am passionate about creating meaningful, context-sensitive spaces that respond to both environmental and social needs. I thrive in collaborative environments, value critical thinking, and am always eager to learn and grow through practical experience. I am now seeking opportunities where I can apply my skills, creativity, and dedication to contribute to impactful architectural projects.
