

VASANTHAKUMAR C

BIM MODELER- MPF

+91 7708986523
vasa12062002@email.com
Namakkal,Tamilnadu

EDUCATION

2023 | Muthayammal College
of Engineering

B. E Mechanical Engineering with
7.7 CGPA

SOFTWARE PROFICIENCY

- ❖ REVIT
- ❖ NAVISWORKS
- ❖ AUTOCAD

RESPONSIBILITIES

- ❖ Create and Maintain 3D model
- ❖ Create shop drawing for MPF services
- ❖ Coordinate with Other trades
- ❖ Implement BIM Standards
- ❖ Manage model quality control
- ❖ Report to BIM coordinators or manager

LANGUAGES KNOWN

- ❖ English
- ❖ Tamil

EXPERIENCE SUMMARY

A well proficient individual in MPF modeling with an overall two year experience. Good project management skills with communication,fascinated to learn new things and interpersonal skills to effectively collaborate with other engineers

WORK EXPERIENCE

PINNACLE INFOTECH SOLUTIONS - PRESENT

WORK PROFILE:

- ✓ Reviewing, managing and executing BIM projects involving multiple trades
- ✓ Modeling of HVAC, Plumbing and Fire Fighting Systems in BIM software (Revit)
- ✓ Shop drawing for all mechanical services in Revit & Autocad
- ✓ Coordination meetings with clients regarding viewpoints discussion and submission of files
- ✓ Attending Client & Contractor BIM meeting for providing solutions & resolving Issues.
- ✓ Quality Control & Management,Construct-ability Review,Value Engineering
- ✓ Manage AutoCAD, knowledge of BIM 360 & Autodesk Construction Cloud

PROJECT EXPERIENCE

AVENUE MALL ,KSA

The scope of work is to Model HVAC,Plumbing and Fire Fighting trades respect with IFC model and coordinating with all services using NAVIS.

- ✓ Creating & editing, developing LOD 350, the MEP Revit model
- ✓ Performing Clash Analysis within services & all other services & solving the clashes if any.
- ✓ Managed the creation of detailed 3D models and CSD & Individual shop drawings.
- ✓ Followed Codes and Standards which is provided by client side.
- ✓ For clash free model using Revit MEP software along with Navis works

DAMMAM ARAMCO STADIUM ,KSA

The scope of work is to Model HVAC,Plumbing and Fire Fighting trades respect with IFC model in Revit and coordinating with all services using Navis and Published in BIM Platforms (Autodesk Construction Cloud)

- ✓ Developing LOD 350 in Revit for MEP services
- ✓ Perform clash detection for MEP systems by using NAVIS, identifying and resolving conflicts in the design phase
- ✓ Preparation of RCP layout and design validation for sprinklers by following the NFPA Standand and codes.
- ✓ Preparation of Individual shop drawing and 2D MEP Coordination drawings
