OBJECTIVE

To leverage my 4 years of Civil Engineering foundation and BIM expertise in a dynamic role as a BIM Modeler or Engineer, utilizing skills in Revit, Civil 3D, and Navisworks to deliver precise, efficient project solutions. With hands-on experience in ISO 19650 standards and complex simulations from large-scale infrastructure projects, I am eager to contribute to innovative projects that drive seamless design and construction integration.

EXPERIENCE

MYSURU, KARNATAKA, INDIA
Dec 2020 - Present

ASSISTANT ENGINEER/ CIVIL ENGINEER (OUTSOURCE)
KARNATAKA URBAN WATER SUPPLY AND DRAINAGE BOARD

- Conducted site inspections and coordinated with subcontractors to ensure project quality.
- Assisted in preparing project proposals and estimates for civil engineering projects.
- Collaborated with engineering team to analyze and resolve technical issues on construction sites.
- Utilized AutoCAD and other design software to create detailed engineering drawings.

EDUCATION

MYSURU
Aug 2017 - Sep 2020

Bachelor of Engineering, Civil Engineering
MAHARAJA INSTITUTE OF TECHNOLOGY, MYSURU

MYSURU
Jul 2014 - Jul 2017

Diploma in Civil Engineering
Govt.CPC POLYTECHNIC MYSURU

Jan 2024 - Nov 2024

BIM Professional Course for Civil Engineers
Novatr

LANGUAGES

Kannada, English, Hindi

SKILLS

Revit
CDE
Navisworks
ISO 19650
Civil 3d
Infraworks
3D Modeling

PROJECTS

JAKARTA MRT NETWORK EXPANSION PROJECT

Objective: Creation of a new MRT network linking Senayan Metro to Pancoran LRT with six new sub-stations.

Utilized ISO 19650 standards in Building Information Modeling (BIM) to ensure compliance and efficient project collaboration.

Performed key tasks including family creation, establishing a Common Data Environment (CDE), clash detection, and executing 4D/5D simulations.

Gained proficiency in BIM software such as Revit, Civil 3D, Infraworks, Navisworks, and Dynamo through hands-on project involvement.

CERTIFICATIONS & COURSES

BIM PROFESSIONAL COURSE FOR CIVIL ENGINEERS

Completed a comprehensive BIM course at Novatr, gaining expertise in tools like Revit, Civil 3D, Infraworks, Navisworks, and Dynamo. Applied ISO 19650 standards & Responsibilities included family creation, 3d modelling, establishing a Common Data Environment (CDE), performing clash detection, and managing 4D/5D simulations.
