Professional Summary

Detail-oriented and highly skilled **Senior BIM Modeller** with over **6+ years** of experience in Building Information Modeling across residential, commercial, and infrastructure projects. Proficient in using industry-leading BIM software such as **Revit, Navisworks and AutoCAD**, with a proven track record in coordinating with architects, engineers, and contractors. Adept at clash detection, 3D model development, and construction documentation. Passionate about delivering high-quality digital models that enhance project accuracy and efficiency.

Key Skills

- BIM Coordination & Implementation
- Autodesk Revit (Structure & Architecture)
- AutoCAD, Navisworks
- Clash Detection & Resolution
- 3D/4D Modeling
- Family Creation & Parametric Modeling
- Project Documentation & Detailing
- LOD 100-500 Model Development
- BIM Execution Plan (BEP) Understanding

Professional Experience

Organization - The BIM Engineers, Chennai

Designation: Senior BIM Engineer

Duration: July, 2024 - Present

Job Role:

- Lead the development of comprehensive structural BIM Models, adhering to industry standards and best practices.

- Conduct thorough reviews of structural design documents to inform and enhance the development of BIM models.
- Coordinate seamlessly with multidisciplinary teams to resolve conflicts related to architectural and structural elements and streamline project workflows.
- Ensure the integrity and accuracy of structural BIM models through rigorous verification processes and clash detection coordination meetings.

Organization - Seyon Innovative Engineering, Chennai

Designation: Senior Design Engineer

Duration: July 2023 - July 2024

Job Role:

- Utilize advanced software tools such as Revit Structure, architecture, and AutoCAD to create detailed digital representations of Structural elements within project designs.
- Creating LOD 500 As-Built Sheets and Documentation
- Collaborate closely with architects, structural engineers, and other stakeholders to integrate architectural and structural design concepts effectively into BIM Models.
- Assisted project managers in preparing proposals for new projects
- Provided training to design engineers on best practices related to modeling techniques and procedures.

Organization - Seyon Innovative Engineering, Chennai.

Designation: Design Engineer

Duration: Jan 2019 - July 2023

Job Role:

- Created 3D models for construction documents using Revit.
- Created advanced views, schedules, sheets, and annotations from existing model elements
- Paid attention to detail while completing assignments.
- Facilitate walkthroughs and presentations of structural and architectural BIM models to project stakeholders providing valuable insights and fostering collaborative decision-making.

Organization - Cadd India Research and Development, Chennai.

Designation: CADD Engineer (Part-Time)

Duration: May 2017 to December 2018

Job Role:

- Conducted workshops and seminars to educate employees on the usage of CAD tools.

- Created tutorials and documentation for users to understand how to utilize various CAD features.
- Demonstrated the use of CAD systems and software applications for design projects.

Major projects handled

- Navi Mumbai International Airport Limited, India
Role: BIM Lead | Software: Revit, Navisworks
Scope: LOD 400
 - ✓ Steel sub structure modeling of honeycomb ceiling
 - ✓ Clash detection with various disciplines
 - ✓ Resolve design conflicts with site execution team.
- Num Aligarh Refinery Project - Main Control Room (MCR2), India
Role: BIM Modeler and Co-ordinator | Software: Revit, Navisworks
Scope: LOD 400
 - ✓ RCC structure modeling of Main control room
 - ✓ Clash detection with architecture
 - ✓ Co-ordination with client for design changes.
- Technology Centre-4, L&T, India
Role: BIM Modeler | Software: Revit, Navisworks
Scope: LOD 350
 - ✓ Architectural modeling of TC4 building
 - ✓ Clash detection within same discipline
 - ✓ Analyzing project input and preparing RFIs
- Confidential Government Development Project, Saudi
Role: BIM Modeler | Software: Revit, Navisworks, Dicroots
Scope: Conceptual Design - LOD 100
 - ✓ Indicative layouts showing major spaces of precast structure and their relationships.
 - ✓ Basic views illustrating the building's external appearance
 - ✓ Basic cross-sections showing building heights and spatial relationships.
- Residential, Industrial and home addition project, Australia
Role: BIM Lead | Software: Revit, Enscape

Scope: LOD 400 & LOD 500

- ✓ Architectural modeling and rendering of residential buildings in Australia
- ✓ Cold formed steel structure design of Industrial PEB Structures
- ✓ Construction documentation and Approval drawing creation.

- Tanami Expansion 2 - Newmont Australia

Role: BIM Modeler | Software: Tekla

Scope: LOD 400

- ✓ Steel structure modeling
- ✓ General Arrangement drawing creation
- ✓ Shop drawing and part drawing creation

Education

- M.E. Structural Engineering (St. Peter's College of Engineering, Chennai), 2019
- B.E. Civil Engineering (Gojan School of Business and Technology, Chennai), 2017

Key skills

- Create a diverse range of drawings, spanning conceptualization to detailed design stages. (LOD200 till LOD 500 as per LOD specification)
- Collaborate closely with teams, ensuring alignment with project objectives and specifications.
- Worked closely with the team on Revit projects, upholding accuracy and delivering top-notch outcomes.
- Create Revit families and components, enriching design adaptability and project efficiency.
- Address Revit modeling changes promptly, guaranteeing smooth project progression.

PERSONAL INFORMATION

- Name : Yuvasri. A
 - Gender : Female
 - Date of Birth : 06-MAY-1996
 - Language Proficiency : English, Tamil.
 - Present Location : Chennai, Tamil Nadu.
-
