

Sheeba Elizabeth R

Professional Summary

To build career in a growing organization where I can get the opportunities to prove my abilities by accepting challenges fulfilled organization goal and climb the career ladder though continue learning and commitment.

Education

Kamaraj college of engineering and technology
B.E.(ECE)

August 2021 -April 2025

- CGPA -7.3

Sri Sowdambika Convent Matriculation
Higher Secondary School

12th Grade

May 2020-April 2021

- Pass Percentage -77.94%

Sri Sowdambika Convent Matriculation
Higher Secondary School

10th Grade

May 2018-April 2019

- Pass Percentage -70.4 %

Internship Experience

Pantech PVT-Embedded System Internship

Completed the internship for 7 days at Pantech PVT, Madurai. I have learned Embedded system in IOT that I have used in My project.

WEBGAPP- Web Development Internship

Completed the internship for 15 days at WEBGAPP, Madurai. There I have learned basic web designing by using HTML.

Project Works

Non-Electrical Device for Tilting the Solar Panel based on sun position

A fixed solar panel setup often fails to capture maximum sunlight throughout the day due to the changing position of the sun in the sky. To address this challenge, there is a need for an automatic tilting mechanism for solar panels. By maintaining an optimal angle relative to the sun's rays, the panel can absorb more sunlight, increasing the overall energy output by upto 25-35% compared to a fixed panel.

Area of Interests

- Digital electronics
- VLSI
- SQL

Contact

Address: Chennai

Contact: 9176353918

Email -ID: sheebaelizabeth26@gmail.com

LinkedIn: <https://www.linkedin.com/in/sheeba-elizabeth-b9b44a227>

Certifications

- Value Added Course

Completed the Value-Added Course on "Internet of Things using Arduino and Cloud "in Pantech e - Learning. I have using in my project to increase the Automation There al time process analysis through cloud integration.

- Value Added Course

Completed the Value-Added Course on "Internet of Things Using LoRaWAN " in Pantech e Learning.

- Digital Circuit Design in E-Box This course helps to understand the concepts of Digital Design. It provides an introduction to logic design and the basic building blocks used in digital systems.

Experience

Mitsuba India PVT LTD.

Mitsuba fuel pumps are electric pumps manufactured by Japanese company .Mitsuba corporation ,designed to supply fuel to engines, Particularly for motorcycle with models like FP26 & FP28

RupurtMEP Solution

Skilled MEP Coordinator with expertise in AutoCad drafting of Plumbing ,Electrical and FireAlarm .

Awards

- Participated in Paper Presentation on the topic of 'Performance Improvement of Bifacial Photovoltaic using Thermal Imaging Techniques "at Thiagarajar College of Engineering, Madurai.
- Won Second Price in Paper Presentation on the topic of "Non-Electrical Device for Tilting the Solar panel" at Hindustan college of Engineering and Technology, Coimbatore.

Skills

- C, Python
- AutoCad MEP
- Revit MEP
- BIM
