### PROJECT

#### JAN - APR 2025

##### Exploratory Data Analysis of Manufacturing Defects, at Arulmurugan Engineering Works, Coimbatore.

- The project analyzes defect data at Arulmurugan Engineering Works using Python-based EDA to uncover patterns in defect types, severity, inspection methods, and repair costs. It identifies surface and structural issues as most frequent, manual and visual inspections as most effective, and proposes improvements like predictive maintenance and quality control to reduce defects and optimize performance.

#### APR 2024

##### MBA Organization Study - Kasthuri Cottage Industry (Baby Masala), Nagercoil.

- Conducted an organizational study to analyze business operations and efficiency.

#### JAN - APR 2022

##### A Website for Kids School Management System.

- The project "A Website for Kids School Management System" develops a user-friendly digital platform to manage student enrollment, attendance, fees, schedules, and academic performance—streamlining communication between parents, teachers, and administrators.
