

DavidArvinth Kumar Sundararajan

Civil Engineer | BIM Modeler

Mumbai, India | +91 9768006546 | arvinthk30@gmail.com | linkedin.com/in/davidarvinth-kumar-s-4b27b4120

PROFESSIONAL SUMMARY

BIM Modeler with 3+ years of hands-on experience delivering architectural, structural, and MEP-coordinated models for US-based residential remodelling and Indian commercial projects. Strong expertise in Scan-to-BIM, LOD 350 modelling, interior remodelling, clash detection, and construction documentation. Proven ability to collaborate with international teams and deliver coordinated, accurate models aligned with US-based and Middle East BIM standards. Proficient in Autodesk Revit, Navisworks, AutoCAD, Bluebeam, and Lumion.

CORE BIM & TECHNICAL SKILLS

- Scan-to-BIM (Point Cloud to Revit)
- BIM Modelling – LOD 200 / LOD 350
- Architectural Modelling & Interior Remodelling
- Structural & MEP Modelling (Coordination Level)
- BIM Coordination & Model Federation
- Clash Detection & Clash Report Preparation
- Construction Documentation & Sheet Composition
- Parametric Architectural Revit Family Creation
- 3D Visualization & AI-Assisted Rendering
- IFC & COBie Data Standards

SOFTWARE & TOOLS

Autodesk Revit | Navisworks Manage | AutoCAD | Bluebeam Revu | Lumion | BIM 360 / ACC | MS Excel & Word | Google Earth Pro

PROFESSIONAL EXPERIENCE

BIM Modeler | Enigma Design Technology, Mumbai

June 2024 – Present

- Executed Scan-to-BIM workflows for 10+ US-based residential remodelling projects, converting point cloud data into accurate Revit models (LOD 350).
- Developed architectural, structural, and MEP coordination models for Indian commercial projects.
- Prepared detailed construction drawing sets, including sheet drafting, sheet composition, annotations, and detailing.
- Performed clash detection using Navisworks Manage, identifying 100+ clashes per project and generating clash reports to support design coordination and reduce on-site rework.
- Generated 3D views and visualizations, including AI-assisted workflows, to support client presentations and approvals.
- Coordinated with architects, engineers, and consultants across 3+ time zones using Bluebeam Revu for markups and issue resolution.
- Managed model uploads, version control, and issue tracking through BIM 360/Autodesk Construction Cloud (ACC) for real-time multi-team collaboration.
- Established Shared Parameters and Shared Coordinates across linked architectural, structural, and MEP models to ensure accurate multi-discipline alignment.

Key Projects: Dalles Sunnyvale, Peartree Cupertino (US-based) | Zendesk, SPIN (India coordination)

1. Dalles Sunnyvale — 1074 The Dalles Ave, Sunnyvale, CA (US-based)

New 2-story single-family residence + ADU | Type V-B, NFPA 13D sprinklered

- Performed Scan-to-BIM/Revit modeling for full demolition and new-construction of a 3,461 SF, 2-story, 5-bed/4.5-bath main house with 484 SF attached garage.
- Modeled a 794 SF attached 2-bed/2-bath ADU, 517 SF uncovered patio, and 179 SF deck with pergola alongside the main structure.
- Produced coordinated architectural documentation across a 12-sheet set (site plan, floor plans, roof plan, elevations, sections, door/window schedules) per 2022 California Building Code.

2. Peartree Cupertino — 19920 Pear Tree Ln, Cupertino, CA (US-based)

Whole-home remodel + new attached ADU | Existing 2,591 SF → Proposed 2,888 SF

- Modeled remodel of kitchen, dining area, two bedrooms, master bedroom, and three bathrooms across a 1,082 SF remodeled area.
- Modeled 385 SF of new additions (foyer, half bath, puja area, bedroom, terrace) and a new 497 SF attached ADU.
- Coordinated MEP updates including AC unit relocation, furnace relocation, and new tankless water heater, and modeled exterior changes (resurfaced
- Patio, reshaped column, new glass balcony railing).

3. SPNI — Goregaon, Mumbai (India coordination) | For M Moser Associates

MEPF services clash detection, Levels 19 & 20 (ceiling level & above)

- Led MEPF clash coordination across HVAC, Fire Fighting, Electrical, Lighting, Plumbing, and Cable Tray, detecting 110 clashes and documenting 13 major hard clashes across 5 disciplines in Revit and Navisworks Manage.
- Ran a structured 7-stage coordination cycle — initial modeling, clash testing, RFI issue, revised CAD, re-modeling, coordination meeting, final re-test closing all 13 major clashes to zero open issues at handover.
- Issued coordinated deliverables in. RVT, NWC, .NWD, and .HTML (clash detection report) formats.

4. Zendesk — Pune, India (India coordination) | For M Moser Associates

25,000 SF, 1-floor multidisciplinary BIM coordination & clash detection | LOD 350

- Developed discipline-wise coordinated BIM models (Architectural, Structural, HVAC, Fire Fighting, Electrical, MEP) in Revit using structured worksets, built from Matterport Pro3 high-density LiDAR scan data.
- Aggregated models in Navisworks Manage, ran clash tests across HVAC, Fire Fighting, Structure, Electrical, Cable Tray, and Ceiling, and issued PPT/Word clash reports through resolution and final validation.

BIM Trainee | BIMTECH Professional Services, Mumbai

March 2023 – January 2024

- Completed 144-hour BIM training covering Revit Architecture, Revit Structure, Navisworks Manage, and BIM workflows.
- Assisted in architectural modelling and spatial coordination for an Israel-based commercial project.
- Supported clash detection, layout verification, and technical documentation under senior BIM supervision.

Junior Engineer Draughtsman (S&T) | Feedback Infra Pvt. Ltd. – RVNL, Solapur

Dec 2022 – Feb 2023

- Reviewed and modified railway signal design drawings in compliance with CRS standards.
- Coordinated with PCSTE office and RVNL officials for drawing approvals and design updates.

EDUCATION

Bachelor of Civil Engineering

2019 – 2022

University of Mumbai GPA: 8.5 / 10

Diploma in Civil Engineering

2014 – 2019

MSBTE GPA: 6.25 / 10

CERTIFICATIONS & TRAINING

- Project Management with Primavera P6 – Udemy
- STTP on Emerging Technologies in Civil & Infrastructure Engineering
- National Workshop on Quantum GIS – PHCET
